

Premier Propulsion Provider for the U.S. Navy

PROTECTING OUR NATIONAL ASSETS

Aerojet Rocketdyne provides innovative power and propulsion to help protect our nation's most valuable assets across multiple domains – sea, air, land and space. We are the only domestic provider of solid, liquid, electric and air-breathing propulsion.

Our reliable propulsion is a key enabler for both current and future missions, including distributed lethality. By developing advanced technology and employing modern manufacturing techniques, Aerojet Rocketdyne products continue to enhance the performance and efficiency of the U.S. Navy's strategic and tactical missile programs that defend our country, our service members and our allies.

For more than 60 years, we've supported the Navy in its mission to win conflicts while maintaining security through sustained forward naval presence. Our team is committed to serving the needs of the Navy's warfighters and to supporting our nation's defense.

LEADING DEVELOPER AND PRODUCER OF ADVANCED ENERGETICS

ROCKET MOTORS/GAS GENERATORS

STANDARD Missile 2 Mk 104
STANDARD Missile 3 Mk 72 & Mk 104
STANDARD Missile 6 Mk 72 & Mk 104
SM-3 Throttling Divert & Attitude Control System (TDACS)
Tactical Tomahawk Mk 135 Booster
NULKA Active Decoy System
Griffin Missile System®
Trident II D5 Post Boost

RAMJET/SCRAMJET ENGINES

Dual Mode Ramjet/Scramjet (DMRJ)
Variable Flow Ducted Rocket (VFDR)
“Coyote” Supersonic Sea Skimming Target (SSST)

WARHEADS

Tactical Tomahawk WDU-36/B
Joint Standoff Weapon (JSOW-C) Broach

EVOLVING TECHNOLOGIES

Industry Leading Additive Manufacturing
Insensitive Munitions
Composite Cases
Specialty Metals
Torpedo Advanced Propulsion
Extreme Environment Power Generation
Alternate High Performance Propellant
